EDUCATION

Lakshmi Narain College of Technology

B.Tech in Computer Science and Engineering – CGPA : 7.86

Indore, MP

Aug 2018 - May 2022

WORK EXPERIENCE

EcoRatings

Jan 2026 – Present

Frontend Developer

- Led end-to-end development of the main application and admin portal, architecting and integrating **40+ REST APIs** with backend contributions across authentication, agent orchestration, and data pipelines.
- Implemented a secure **refresh-token authentication** system with silent rotation, request queuing, and automatic session recovery, strengthening protection against token replay and unauthorized access.
- Integrated **10+ AI agents** into a unified query interface, implementing streaming responses, tool-call handling, and structured output rendering for seamless conversational workflows.
- Optimized platform performance through **code splitting, lazy loading, list virtualization**, and backend query tuning, reducing initial load size by **45%** and cutting ESG report generation time from 3 minutes to 2 minutes 20 seconds.

OexTech Solutions

Jan 2024 – Sept 2025

Software Engineer

- Created high-performance websites for multiple clients using Next.js, Tailwind CSS & Strapi CMS, achieving a **100% Lighthouse score**, improving speed by **75%**, and securing **SEO rank 2** on Google.
- Integrated **Stripe, Razorpay**, and **PhonePe** payment gateways, increasing overall checkout conversion rates by **25%** and delivering responsive, CMS-driven interfaces with automated sitemaps and reusable components.
- Engineered an automated **bulk invoice generation system** for orders across multiple marketplaces, reducing manual effort by **80%** and enabling the processing of **500+ invoices** within minutes.
- Developed a **UPC-to-product mapping** system to standardize inventory tracking, eliminating SKU confusion and improving inventory accuracy by **28%**.
- Integrated **Azure Speech Recognition** into the AiCodePro chatbot and built interactive product discovery features, reducing user typing time by approximately **40%** and increasing product engagement by **25%**.

PROJECTS

Inertia Leads : [Website](#) | [App](#) | [GitHub](#)

- * Built and launched a production **B2B SaaS** automating **5+ sales tasks** through lead discovery, website enrichment, **30+ website signals**, proprietary **0–100 lead scoring**, and AI-powered personalized outreach.
- * Engineered personalized **AI audit reports** for **SEO, marketing, and web development** prospects, with unique tracked URLs that monitor engagement and automatically identify **hot leads** when reports are viewed.

DrawBoard : [GitHub](#) | [Demo](#)

- * Built a real-time collaborative whiteboard using **React.js, Canvas API, and Socket.IO**, enabling synchronized drawing across multiple clients.
- * Implemented **6+ interactive drawing tools** with customizable colors and brush sizes, delivering a smooth **60 FPS** canvas experience.

TECHNICAL SKILLS

Languages : JavaScript, TypeScript, HTML, CSS

Frontend : React.js, Next.js, Redux & Redux-Toolkit, Tailwind CSS, Material-UI, shadcn/ui

Backend : Node.js, Express.js

Databases : PostgreSQL

Core Competencies : REST & GraphQL API Integration, Performance Optimization, Responsive Design, Accessibility, Cross-Browser Compatibility, Code Splitting, Lazy Loading

Developer Tools : Git, GitHub, Vite, Webpack, Docker, CI/CD, Vercel, VS Code, Jira, Agile/Scrum

AI Integration : LLM APIs, Streaming Responses, Tool Calling, Azure Speech Recognition
